| <b>Grand Total</b> |                     | <b>\$ 857.76</b>             |

\*\*\* Effective from July 1, 2023, to October 1, 2023

We wish to communicate to all our valued patients and stakeholders that the fees quoted for our services at North Shore Medical Group are valid from July 1, 2023, until October 1, 2023.

During this period, we assure you that there will be no changes to our quoted fees. Please note that the fees listed cover the cost of the medical services provided by our practitioners and do not include any additional charges that may arise due to external services, such as laboratory tests or specialist consultations, which are billed separately.

After October 1, 2023, our fees may be subject to review and change. We will ensure to communicate any changes in a timely manner and continue to strive for transparency in our billing practices.

Please note that if you have private health insurance, the coverage and any out-of-pocket expenses will depend on your specific policy, and we recommend that you consult with your insurer for details.

We also remind our patients that any gap between our fees and the rebates provided by Medicare or a private health insurer is the responsibility of the patient.

We appreciate your understanding and are grateful for your trust in our medical care services. If you have any questions or concerns about our fee structure, please do not hesitate to contact our administrative office at North Shore Medical Group.

Thank you for choosing North Shore Medical Group for your healthcare needs.
